Applicant _____

Address _____

Contractor's License No. _____ Phone _____

Purpose of Excavation, Crossing, or Alteration _____

Location _____

(Description, sketch, or plan required in duplicate – indicate nature and extent of excavation, method of accomplishing, means of handling traffic and length of construction period)

Instructions and Provisions:

A. For and in consideration of the granting of said permission the applicant agrees to follow instructions and provisions of the City of Santa Clara, Ordinance #93-111 with respect to the performance of work under this permit:

- | | |
|--|---|
| <p>1. Verify with the Public Works Director or the utility companies concerned, the location of all underground facilities which might be located within the limits of said excavation and will be responsible for and will repair or pay for any damage to such underground facilities.</p> <p>2. Erect and maintain about said installation during the excavation and until the street is restored to its normal condition, sufficient guards, signals, barricades and lights to prevent accidents.</p> <p>3. As soon as reasonable possible after the completion of said work, restore the street to the same condition in which it existed prior to said excavation, including the removal of rocks, dirt, rubbish and all other materials from the street which exist as a result of excavation, and be responsible for maintaining the surface of the excavated area from settlement and deterioration for a period of one year after first restoration.</p> <p>4. In case the excavation is through asphalt or cement or beneath stone blocks, make the cut perpendicular at the sides and ends from the surface for the full length and width of all excavations to the necessary depth.</p> <p>5. Notify the Public Works Director at least 4 hours prior to back filling, indicating the time the trench is to be back filled.</p> | <p>6. Not to permit any excavation to remain open in any street for a period of more than 10 days, nor to close any street or restrict traffic without prior permission of city.</p> <p>7. Be responsible for maintaining and guarding the excavated area for a period of one year after first restoration.</p> <p>8. In all cases back fill according to standard specifications and use material for that purpose which shall be properly tamped or a sufficient quantity of water used to properly settle the materials to the satisfaction of the Public Works Director in charge of streets. If material cannot be properly compacted, sand or other porous material will be used.</p> <p>9. In case excavating is done by machine, do such excavating with either a trenching machine or pull shovel which does not have cleats, spikes or other protruding parts which will come in contact with the street surface when such machine is in motion, such machine to have a cutting width of not to exceed 40 inches.</p> <p>10. Hold the City harmless from any and all claims, liability, demands, or damages for any and all injury to persons or property arising in any manner out of or by reason of such excavation.</p> <p>11. Respond to the City in damages for failure to conform to any or all of the requirement set forth in this section</p> |
|--|---|

B. The applicant shall file with a city clerk a bond acceptable to the city, prior to effecting the above stated excavation. Said bond is conditioned upon the faithful performance of the owner or contractor in complying with the provision of this permit and Ordinance #93-111 of the City of Santa Clara.

C. If any of the provisions of said bond, this permit, or Ordinance #93-111 is violated or not observed the Public Works Director may do all things necessary or proper to repair such street or way at the expense of the person making the excavation.

I hereby acknowledge that I have read the instructions and provisions of this permit and Ordinance 93-111 of the City of Santa Clara and agree to assume all duties and obligations provided therein.
